Summary

A **Full Stack Web Developer** passionate about building **powerful web apps** and **LLM-based solutions**. Specializes in creating **interactive, AI-driven experiences** and delivering **high-performance, user-friendly applications**. Excited to tackle **new challenges** and innovate in **modern web ecosystems**.

Education

Swami Keshvanand Institute of Technology, Rajasthan Nov 2022 – Present
BTech in **Computer Science**; CGPA: **9.3**

Guru Nanak School of Excellence, Gujarat April 2022
Senior Secondary Education (**GBSE**)

Academic Heights Public School, Gujarat March 2020
Secondary Education (**CBSE**)

Skills

Languages: Java, JavaScript, SQL

Markup/Styling: HTML, CSS

Frameworks/Libraries: React.js, Node.js, Express.js, LangChainJS, TailwindCSS, PineconeDB, MongoDB, Cohere, MY-SQL, Socket.io, Docker, nginx

Tools/Platforms: Render, Netlify, Vercel, Postman, GitHub, n8n

Projects

ResumeScan

Tech Stack: React.js, Node.js, Express.js, Tailwind CSS, LangChainJS, Groq, PineconeDB, Cohere

- Developed an **ATS scoring engine** to analyze resumes against job descriptions.
- Offered **instant, dynamic feedback** with a UI for **real-time optimization**.
- Suggested **keyword-based enhancements** for higher ATS success rate.

docChat

Tech Stack: React.js, Node.js, Express.js, Tailwind CSS, LangChainJS, Groq, PineconeDB, Cohere

- Built an **RAG-based document interaction platform** for **contextual Q&A**.
- Used **LangChainJS** for **intelligent document parsing and embedding**.
- Integrated **Cohere** for **semantic and natural language understanding**.

codeXevo

Tech Stack: React.js, Express.js, Node.js, Firebase, Socket.io, Tailwind CSS

- Engineered a **collaborative platform** for **real-time coding projects**.
- Enabled **seamless live previews** and **code synchronization** across users.
- Used **Firebase** to handle **multi-user sessions with low latency**.

Achievements

- Contributed to **open source projects** across various web development communities.
- Earned **Walmart certification** in **Advanced Software Engineering**.
- Solved over **250+ DSA problems** on platforms like LeetCode, GFG, and Code360.
